

Lance Hudson

<https://lancexhudson.eth.limo/>

Summary

Creative and analytical full-stack developer focused on bringing value to the world through rich web applications

Technical Skills

Web3/DeFi, JavaScript, MetaMask, Java, Spring Boot, PostgreSQL, RESTful APIs, HTML, CSS, Vue.js, Responsive Design, Postman, JSON, Git, Office 365, SharePoint

Education

Tech Elevator (Java) | Cincinnati, OH

May 2022 - August 2022

A 14-week full-stack coding boot camp focused on creating dynamic web-based software systems using Java and providing over 700+ hours of hands-on development education and application

Google IT Support Certificate | Coursera

January 2022 - May 2022

Certificate created by Google to provide foundational skills in Command Line Support, Cloud Computing, Network Protocols, Encryption Algorithms, and System Administration

Technical Experience

Melody Social Application

- Collaborated with four software developers to design and build a social media platform to strengthen the relationship between bands and their fans through following and exclusive messaging content. Melody is a full-stack web application built using IntelliJ, PostgreSQL, and Vue.js.

Financial Wellness Application

- A simple yet comprehensive CLI application designed to help users determine savings rates based on their income and project compound growth through savings accounts, 401ks, and The S&P 500. Currently adding front-end UX and tax savings/compound growth calculations for tax-advantaged accounts.

Tenmo Application

- Built a secure money transfer API that simulates the process of Venmo, using MVC pattern and REST. Server-side is powered by Spring Boot and incorporates PostgreSQL. Security uses JSON Web Tokens (JWTs) for authentication and authorization.

Professional Experience

The Hillman Group | Assoc. Application Support Analyst

September 2022 - Present

- Currently supporting JD Edwards EnterpriseOne ERP System
- Leveraging SQL to query, analyze, and provide insightful data for the business
- Develop end-user process documentation

McLane Food Service | Delivery Driver

March 2010 - May 2021

- Promoted from warehouse associate to delivery driver to new-driver trainer by demonstrating strong communication and leadership skills
- Recognized as Teammate of the Month for Outstanding Customer Service

RDK Sound Design | Co-Founder

March 2012 - October 2015

- Co-Founded a boutique guitar amplification and speaker cabinet company
- Authored schematics, built prototypes, and gained a great understanding of woodworking and electrical engineering to produce hand-crafted vacuum tube amplifiers, effects pedals, and speaker cabinets
- Presided over all manufacturing, sales, and marketing throughout the life of the organization, selling over 100 items around the world
